1 Introduction

ccaR is a package ...

2 Installation

You can download-install the package from github and load the library:

```
#devtools::install_github('thdiakon/ccaR')  
library(ccaR)
```

3 A case study

This is a simple example of implementation of the code for the ccaR package.

```
DATASET<-read.csv(system.file('extdata','miyazaki2017CCA.csv', package = 'ccaR'), sep = ";")  
t<-cca(DATASET)  
View(t)
```
